**FOR IMMEDIATE RELEASE**

**JANUARY 29 LATE UPDATE ON THE HILLS OF RIVERMIST COMMUNITY IN SAN ANTONIO**

**San Antonio, Texas, January 29, 2010** — Centex met with City officials today to inspect the retaining wall at the Hills of Rivermist. The City identified visual discrepancies between the retaining wall design specifications provided by Centex and the City's engineers' observations of the retaining wall. Centex continues to work openly with the City to provide materials, including documents from the contractor and engineer who constructed the wall, to aid in its investigation.

Centex is working with the City to develop a short-term solution to stabilize the retaining wall and a long-term plan for resolution at the community.
